TOP 10 TIPS FOR A SUCCESSFUL SLC RESEARCH TRIP

1. Be prepared. Before you go to SLC, get film and book numbers from the Family History Library Catalog online at www.familysearch.org.
2. Make a to-do list. Establish goals and priorities prior to making your trip to SLC. Make a list of your problems and list sources that might give you answers.
3. Organize your materials; prepare electronic or paper research logs to record your findings.
4. Look at books first, since they aren't available through interlibrary loan and plan your research so that you don't have to run back and forth between floors.
5. If film has to be brought from the vault, order it on arrival (or before) and leave it for last.
6. Bring dimes for the storage lockers and plan to buy a copy card for copy machines. You can save digital images of microfilm to a flash drive, but you will still need some cash.
7. If this is your first trip, take advantage of the orientation provided and consider taking some classes.
8. Attend Sunday morning Mormon Tabernacle choir performance or Thursday night choir rehearsal for fun.
9. Ask the LDS receptionist for a pass to LDS Office Building cafeteria and information about other cafes.
10. **Attend our workshop, *How to Prepare for Visiting the Family History Library*, 10:30 a.m., 1 March, at JCGL.**

BREAKING THE "BRICK WALL" IN YOUR FAMILY TREE

Do you think your relatives were in witness protection? RVGS will be holding "Brick Wall Roundtable" discussions quarterly to help you in your family research. Those elusive ancestors may be playing hide and seek now, but after the roundtable you will have new tools to help find them. A panel of fellow genealogy researchers will give you ideas on breaking through to continue with you quest. The first in the series of four roundtables will be held on April 9, 2011.

Then save these dates for future roundtables: July 9, 2011; September 10, 2011; and December 10, 2011. Roundtables will be held from 10:30 a.m. until noon at the Jackson County Genealogy Library, 95 Houston Rd., Phoenix, OR.

FROM THE FINANCE DIRECTOR

As a member of RVGS, you undoubtedly are aware of the size and quality of our collection and websites and the friendly help offered by the librarians. Our mission is to make genealogical and historical records available to our members and the public in a variety of ways. And, thanks to our dedicated membership, we are growing, and we are able to provide you with more and better access to genea-

logical materials. RVGS is financially well situated. We have no debt, we receive no federal or state funds, and we are an all-volunteer nonprofit organization. Our financial support comes from three main sources: memberships, research fees and donations. Following are some of the opportunities for you to consider in making tax-deductible donations to RVGS:

We hold our **Annual Fund Drive** each spring to support general operating expenses. We also have designated funds which are restricted to specific purposes. Currently, the designated funds are:

Book Fund used to purchase books for the library collection beyond the annual budgeted amount. If a memorial donation is made to this fund, a bookplate will be placed in a book to honor that person and his/her name added to the Memorial Plaque in the Library. This fund also includes donations collected at RVGS general meetings.

Technical Equipment Fund is used to purchase technical equipment beyond the annual budgeted amount.

Volunteer Recognition Fund is used to thank volunteers at a Volunteer Recognition Luncheon in December and on other important occasions. It is the Society's way of saying *thank you* to the many volunteers who donate hundreds of hours of work.

RVGS Endowment Fund is a permanent fund invested with the Oregon Community Foundation and only earnings may be withdrawn by RVGS. The Board has decided that no distributions will be taken from the Endowment Fund until after May 2012. The Endowment is a **permanent fund** and your gifts to it will be held in perpetuity for the sole benefit of RVGS. Endowment support is one of the most important ways to guarantee the future of RVGS and the Jackson County Genealogy Library for generations to come. Memorial donations may be made to this fund and the honored person's name will be entered in the Endowment Record and on the Memorial Plaque in the Library.

(cont'd, page 5)

FROM THE FINANCE DIRECTOR (cont'd from p. 4)

Pledge for the Future Building Fund is a five-year campaign to raise \$100,000 to fund building expansion or purchase of another building by 2015 so that we can begin to address the **challenges** of our current facility:

- Dwindling space for our growing collection
- Increasing demand for research computers
- Lack of quiet areas for reading, studying, researching
- Very limited parking
- Limited room for programs, classes and meetings
- Crowded work spaces for members and volunteers
- No sprinkler system in event of fire

By planning ahead, as we have done in the past, RVGS will be able to expand our services for our growing membership.

If you have questions about the financial aspects of RVGS or wish to make a donation now or in the future, please contact our Treasurer, Colista Bailey (cmbailey74@msn.com; 541-772-8318, or the Finance Director, Karen Asche (kfasche@gmail.com; 541-734-3147)

ORA STROM 1920– 2010

In December 2010, RVGS lost an Honorary Life Member, Ora Strom. She was a founding member of our organization in 1966 and loved to relate that she was in charge of keeping the collection of research books. The books were stored in a cardboard box under her bed until such time as the group met. She became a Charter Member in 1979 when the group formally organized and received non-profit status.

Ora was passionate about genealogy and spent her life recording her family history and volunteering for RVGS. Even before the formal organization came into existence, Ora diligently worked to inventory the Jackson County cemeteries. An interesting article in *The Mail Tribune* described her as enjoying a “rather unusual way of spending her time. Armed with her notebook and pencil and probably her lunch...she hunts out old cemeteries...copying down names, dates, and other information she found on the grave markers.”¹ In the interview, she stated that “she is trying to collect and compile all of the information she can so that it will be made available to the public through the Rogue Valley Genealogical Society Library.”¹ She did a good job! When she moved away from the valley, she left a legacy of 33,000+ cemetery cards and many compiled books of cemetery information on our county historical cemeteries. This file has now become the cemetery/death file found on our website: www.rvgslibrary.org/Cemetery.html; the current file contains over 50, 000 names and about 30, 000 headstone photos. In later years, while continuing to add family information to the cemetery file, Ora also worked to expand our Pioneer Vertical File information.

We will miss her friendly smile and warm personality. Ora’s example of dedication to the Society and her high standards for accuracy of information will always be a guide to our organization and volunteers.

TECH TALK

Are you researching the New England States and New York? If so, you should be accessing the subscription website at the Jackson County Genealogy Library called American Ancestors.org formerly known as New England

Ancestors. The website has added some great new features for you to check out including an improved Advanced Search (exact or wildcard searches). Some of the more

popular databases include: Massachusetts Vital Records, The New England Historical and Genealogical Register, The American Genealogist, The Great Migration Begins: Immigrants to New England 1620-1633; The Great Migration: 1634-1635, vol. I-V (A-P), and Abstracts of Wills in New York State, 1787-1835. You can access some free databases from home as well as search tips, frequently asked questions and navigation help. However, you will find around 3,000 record collections from this website offered from New England Historic Genealogical Society (NEHGS) at Jackson County Genealogy Library.

SALT LAKE INSTITUTE OF GENEALOGY 2011

On January 10-14, 2011 three RVGS board members traveled to Salt Lake City to take week-long courses in genealogy from experts teaching at the annual Salt Lake Institute of Genealogy operated by the Utah Genealogical Association. Using their personal funds, Melinda Henningfield, Education Director, took Course 5- "Researching in Washington, DC without Leaving Home," coordinated by Rick and Pam Sayre from Washington DC; Andrea Patterson, Secretary, took Course 2- "NEHGS- Part 1 New England and New York Strategies and Methodologies," coordinated by D. Joshua Taylor of New England Ancestors; and Barbara Basden, Electronic Publications Director, took Course 5- "Irish Research," coordinated by David Ouimette, CG. All three women arrived a few days before the institute and stayed on a few days after in order to do research at the Family History Library in Salt Lake City. Last year all three had also traveled to Salt Lake City for the annual institute. Last year Connie Miller, Research Director and Colleen Eccleston, Honorary Life

Member, joined them to complete courses there as well. Courses like these translate in turn into better information for you when you do your research at JCGL.

UPDATES TO OUR LIBRARY AND SOCIETY WEBSITES

Library Website Additions

In January, Dave Basden, webmaster, uploaded over 10,000 additional headstone photos to the Cemeteries link (www.rvgslibrary.org/Cemetery.html), adding many new names to the Cemetery listings. Ivend Holen coordinates the activity of volunteers— Rene Forncrook, Vern Weaver, and others—who enter cemetery information and photos into the computer files.

Indexes to six additional volumes of the *Rogue Digger* (10, 11, 20, 21, 28 and 29) have been added to the website primarily thanks to the indexing work of Judith Amberson, Pat Carnahan, and Leo Kimm. Only a few of the total of 42 volumes of the *Rogue Digger* remain to be indexed. Hooray! When the indexes are complete, digi-

tal images of all volumes of the *Rogue Digger* will be uploaded to the Jackson County Genealogy Library website. Names and pages in the digital images can readily be found by use of the indexes.

Soon to appear on the website will be indexes to digital images of Jackson County Court records. Linda Kestner and Cheryl Haas have been making full use of the new ScanPro 2000 to convert microfilm loaned by the local State Archives office. Watch for indexes to these records to appear online soon. Dave is also in the process of sprucing up the appearance of the website, so watch for positive changes!

Society Website News

Keep up with classes and events sponsored by the Rogue Valley Genealogical Society on the society website. Emily D. Aulicino is a retired teacher who has researched her family's genealogy for over 40 years, traveling nationally and internationally for that purpose. She is the administrator of seven surname email lists on Roots Web and three genetic genealogy email lists on Yahoo. She is the speaker for and the Regional Coordinator of the **International Society of Genetic Genealogists** (ISOGG) for Oregon, Washington and Idaho. She manages thirteen DNA projects through Family Tree DNA (FTDNA) which include surname, geographical, and society projects. Emily was a speaker at the **FTDNA International DNA Conference** in 2007.

Genetic Genealogy, the use of DNA to support your traditional genealogy, is the most accurate tool a genealogist has. DNA testing has been available to the public since 2000. The use of DNA testing has grown and evolved. There are now millions of testers around the world. This basic presentation will help you answer the following questions:

- Why Test Your DNA?
- How Does DNA Help Genealogists?
- Where Does DNA Come From?
- What Are the Types of Tests?
- What Do These Terms Mean?
- What Is the Future of Genetic Genealogy?

Beverly Rice, CG^(SM) is a teacher and lecturer in historical and genealogical topics with a special interest in Western Migration, the Woman's Experiences in the West and research methodology or "helping others break down those brick walls by getting the most from each record". She is an associate of the Board for Certification of Genealogists, with credentials as a Certified Genealogist^(SM).

She is a board member for the Association of Professional Genealogists (APG) and a former trustee for the Board for Certification of Genealogists. Beverly received a bachelor's degree from Portland State University in social science, with an emphasis on women's studies and US history. Beverly has taught genealogy and banking courses at a local community college on a part-time basis since 1981. She is the Director of American Studies for the National Institute for Genealogical Studies and has been a volunteer librarian at the Coos Bay Family History Center since 1989. In Beverly's shadow life she owns and operates a restaurant with her husband, Gary Goodson, on the beautiful Oregon Coast.

Using Timelines in Genealogical Research: Visualizing the Problem and Breaking Down those Brick Walls

Compiling and organizing genealogical research in a timeline format allows the researcher the opportunity to analyze all aspects of their research. This simple chronological format will help the researcher visualize the flow of events in an individual's life and open doors to new research opportunities.
